Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is responsive to communications: Application, filed on 02/27/02.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Pollitt, US# 2003/0069803 A1.

As per claims 1 and 11, Pollitt teaches “determining a plurality of parameters, each representing one of the plurality of stored information contents” (see page 1, paragraphs [0006]-[0007] and page 2, paragraph [0054]) “storing the plurality of parameters” (see page 1, paragraph [0006]) “determining a parameter representing the received information content; comparing the parameter representing the received information content with the plurality of stored parameters” (see page 2, paragraphs [0059]-[0064]) “indicating that the received information content is identical to a stored information content if the corresponding parameters are equal” (see page 2, paragraphs [0062]-[0064]).

As per claim 2, Pollitt teaches "the plurality of information contents include electronic mails" (see page 2, paragraph [0039]).

As per claim 3, Pollitt teaches "the information content is received through a global communication network" (see page 1, paragraph [0002])).

As per claim 4, Pollitt teaches "the Internet" (see page 2, paragraph [0036]).

As per claim 5, Pollitt teaches "each parameter is determined based on an order and a value of each character in the corresponding information content" (see page 2, paragraphs [0058]-[0060]).

As per claim 6-9, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-5 and are similarly rejected.

As per claim 10, Pollitt teaches "ASCII value" (see page 3, paragraphs [0109]-[0110] whereas Pollitt's values includes ASCII code or text).

As per claims 12-14, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1, and 3-4 and are similarly rejected.

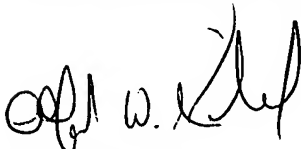

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US# 2004/0049446 A1.
